

[A Strong Place for Boys to Grow Up as Men](#)

As parents, we're so often trapped in the things we've got to do and we forget to concentrate on how we're gonna launch our young men particularly.

A boy needs a male-centric environment that celebrates who he is. He needs men to lead him into biblical masculinity, and he needs an organization that's focused on his strengths, that's built for who he is as a boy.

At Trail Life USA, we are a champion for boys. We believe in boys. We think that they're amazing creations, created in the image of God, and they need to be recognized for their unique contributions.
