

The National Coalition of Men's Ministries is a partnership of over 75 men's organizations, both independent and denominationally affiliated. Our objective is to advance men's ministries, to assist in the discipleship of Christian men, and to help spread the good news of Jesus Christ to all men.

In the last several years there has been an incredible move of God in ministry to men. God has used such men's ministries as:

Promise Keepers

Christian Men's Network

Man in the Mirror

T.D. Jakes' Man Power

Christian Businessmen's Committee

CHIEF

HonorBound of the Assemblies of God

Mens Ministries of the Southern Baptist Convention

Life Builders of the Church of God (Cleveland)

and many others to help raise the flag for this important movement. There is now an exciting and collaborative effort to move ministry to men to the next level in America.

The National Coalition of Men's Ministries (NCMM) is an organization that is uniquely postured to help equip the local church for ministry to men like never before. This new and dynamic organization is an unprecedented collaboration of over 20 denominations, representing more than 200,000 churches, and most of the para-church men's ministries.

The NCMM goal is to assist the local church in reaching men, to encourage

them to pursue God and ultimately help the local church equip their men for spiritual service in their home, church, workplace, community and world. Never before has there been so many diverse organizations working together and pooling resources for a common purpose. It is part of the next wave in what is obviously a national awakening of ministry to men in America and ultimately around the world.
